I saw that she added the following 2 new bullet headings, but did not supply any information around them:

- Concern Raised in Proposed Decision:

And

- Concerns raised during public comment period:

For the first bullet, I'd say "None."

As for filling in the second bullet, I'll need to get back with you and Jayne. I have a working file for the comments on New Dvpt and OSDS as I prepare for our response to comments document, but it is not with me now. But as I recall, there was no new information generated in the comments that I believe rise to the level of a real concern. Folks either agreed or disagreed with our Dec. 2013 proposed decision to disapprove OR's New Dvpt MM and none really challenged the basis we are now citing for approval, mostly because that information was not available until after March 20<sup>th</sup>. So the public has not been presented with a chance to comment on a decision to approve this MM.

That said, come January 2015, if we are now proposing approval for the New Dvpt MM, and disapproving even one other MM (e.g., Forestry—Landslides), then are we requesting public comments around our decision to accept/approve OR's program for addressing the New Dvpt MM? (I think this is a question for the lawyers.)

Yep. That was a big error on my part. Alan caught that yesterday and I already corrected. Thanks for taking a look. Do you have info on comments we received on new devel to add? See Jayne's added section for that.

Allison,

Thanks for getting this going, Allison. My edits consisted of adding 3 letters to Jayne's revised version, as follows:

**Forestry Landslides:**

- Recommended Decision: **Disapprove**

See attached.

I really like this document, Allison. See my comments and thoughts on the attached. Sorry about not providing a tracked version. I forgot to put the tracking feature on.

All--

After our call, I went ahead and converted my "issue" paper on unsolicited comments into a shorter "update" for mngt. In doing so, I went ahead and took a stab at some of the other "updates" we wanted to share related to new devel, landslides, and a general update on responding to comments (we didn't discuss but thought this would be helpful).

The new devel and landslides are more of place holders for now so topic leads please revise as necessary. Not sure if this is the right level of detail for not for these items.

All,

Attached is a more current "Forestry Riparian" Issues Document. This explores three different options vs one. Feel free to give me a call if you have any questions.
